

Important Information: Application to Football Camp FC Augsburg (16.-22.02.2025)

Dear applicants,

We are very happy to announce that the Goethe-Institut has teamed up with the CV Sports Travel and the FC Augsburg for a completely new experience of our extremely popular football camp! We would like to offer applicants between 15 and 17 years the unique chance to spend one week in Augsburg, one of Germany's most attractive cities.

The camp will take place as described on our website, and includes the flight, accommodation, and all the food as well as coach travel to all the different places visited in Augsburg and the football ground. Besides daily training sessions with professional coaches from FC Augsburg, the program includes German football-related lessons with a Goethe-Institut certified German teacher who also happens to be an experienced football player! Additionally, you will get to know the surroundings of Augsburg, the Bayern-Munich stadium and engage in other football-related activities.

We especially welcome the participation of girls in the project. To apply for this unique chance to really experience a well-known football club in Germany in connection with the German language, please fill in the application form on our webpage. We will then send out further information and forms to be filled in by a set deadline.

Please note that confirmed candidates

- should be able (approved parents'/guardians' consent) and willing to travel to Germany alone or in small groups with other participants, depending on the locations of the different schools in your country
- may have to travel by themselves. Please note that, due to the geographical range of partner schools and applicants' location, the Goethe-Institut London cannot ensure that the group of participants will travel together (this includes check-in at the airport etc.)
- are able and willing to wait alone or in small groups at some airports to wait for their flight connection if need be (and in acknowledging the risks that a necessary transit encounters)
- are willing to give their consent for their photos being published on the Goethe-Institut's social media channels or web page (to be consented to in the application form to follow for successful candidates only)

Finally, please also note that flights can **only be booked after the necessary (consent) forms have been received**, meaning flight information cannot be sent out earlier.
