- Experience and skills of the staff assigned to performing the contract related to executing research activities - 20%

Such information and/or procedural complaints should be sent to the following address:

Goethe-Institut Georgien,

10. PRACTICES RESTRICTING COMPETITION

Tenders from bidders who participate in an unauthorised restriction of competition in connection with this award procedure will be excluded.

A key feature of competitive tendering is the guarantee of secret competition between the participating bidders. Accordingly, it is inadmissible for a bidder to

participate in a procurement procedure if it is aware, in whole or in part, of the bids, bid bases or bid calculations of the other bidders. If a bidder therefore not only submits its own bid, but also bids for the award of the contract for the same service as a member of a bidding consortium, secret competition is no longer guaranteed. This leads to the mandatory exclusion of the bids concerned, unless it can be proven that a violation of the secrecy of competition due to the multiple participation is excluded.

11. MISCELLANEOUS

Payment structure of for the services provided, can be negotiated at the contracting stage, with a condition that 30% of the whole amount will only be paid after finalising activities and submitting the final report.

The documents, samples, etc. sent to the contracting authority in connection with the award of the contract shall not be returned and, unless otherwise agreed, shall become the property of the contracting authority without entitlement to remuneration.

No costs will be reimbursed for participation and preparation of the documents.
