# INTRODUCTION FROM THE TEAM

The **MOVE ON SCREEN** program explores the intersection between movement and technology. Presented in collaboration between the **Goethe-Institut Gulf Region** and the **French Institute in the UAE**, it examines the various aspects of the relationship between these two territories.

In its first edition of 2024, dedicated to Dance (and) Film, the program will invite the audiences to dance-related film screening, a dance performance **Souvenirs** by **Claire et Antho (France)** and offer aspiring professionals a 3-day dance workshop on **Pina Bausch (Germany)** work.

The feature film program will play with the theme of heritage through the lenses of classics, reinvention, and contemporaneity. The selected films will also touch on themes of dance as a profession, dance in everyday life, and dance as a source of personal or social conflict - across the genres including ballet, contemporary, and hip-hop.

In a nod to heritage and legacy, **the first-ever program of UAE-related short dance films** will be presented to the audience, celebrating the country's artists and creatives who are at the forefront of this niche art form.

**MOVE ON SCREEN** will take place in Dubai and Sharjah from **October 28 to November 28** at various locations, such as **Sharjah Performing Arts Academy, Cinema Akil at 25H Hotel, and Alliance Française Dubai.**

The program is **free** for the public.
