Worksheet *Crackling fire* (Feuerknistern)

What causes fires to crackle? Place the sentences in the correct order.

- ☐ The **mini explosions** sounds like crackling.
- ☐ But some **water** is still there.
- ☐ Good **firewood** is dry.
- ☐ While the wood burns, **steam** forms.
- ☐ **Conifer wood** crackles more than wood from deciduous trees.
- ☐ The pressure of the steam bursts the **water tubes** in the wood.
- ☐ Not only the water explodes, but also the **resin**.

Answer key *Crackling fire* (Feuerknistern)

Good **firewood** is dry.

But some **water** is still there.

While the wood burns, **steam** forms.

The pressure of the steam bursts the **water tubes** in the wood.

These **mini explosions** sounds like crackling.

Conifer wood crackles more than wood from deciduous trees.

Not only the water explodes, but also the **resin**.
